

Annual renewal of UMRA@umn.edu account

When the password is set to expire UMRA will get an email notice. Updates can be made by logging into the URL given in the email, my-account.umn.edu, using UMRA userid/pw.

Change the password under Password Management (left nav).

Change the account expiration date under Modify Departmental Account (left nav). The new expiration date must be one year from the current date – not one year from the last expiration date. No error is given if an invalid date is given.

This information may (or may not) apply to other accounts as well (UMRA-NR, UMRA-web).
